

INNOVATIVE
POTATO
Possibility

About Us

Funwave is the third-largest producer of French fries in India. From sowing only the highest quality potato seeds to harvesting a healthy crop and manufacturing every packet with heaps of care, our only aim is to give the best quality products to our customers.

Funwave was started with the aim of providing healthy and hassle-free food items that cater to the demands of the modern world. At the core of Funwave, there lies an unbeatable love for good food and an entrepreneurship mindset.

Why Choose Us?

Quality

Quality is maintained at every level, from seeds to the manufacturing of the final product.

Dedicated Potato production program

We have a dedicated team of 500-600 farmers located in Gujarat, MP, Panjab, Himachal Pradesh & Uttar Pradesh that grow potatoes for Funwave.

Seed Multiplication Program

The end product can be best only when the raw material is of the best quality. And we do not just ensure the quality of the potatoes being used, but also ensure that only good quality seeds are used for growing the potatoes. We harvest our own potatoes to maintain the same standards and around 45-60 growers for the seed multiplication program are located in HP, Punjab & Haryana.

Hygiene

Funwave follows all international quality standards, so maintaining hygiene at every level is of utmost importance to us.

Sustainability

We have a dedicated team to assist growers in agronomy with the use of scientific methods which are sustainable and help in keeping the soil healthy.

Freshness of The farms on Your Plate

Mission

- To work for and with the community by large, keeping the basic values of humanity and sustainability in mind
- To work keeping the social welfare of all the communities of society in mind
- Treating all employees equally and maintaining an ethical and human-centric work environment
- Work with keeping in mind the overall upliftment of all the growers/farmers associated with us and work responsibly towards all stakeholders
- Maintain a strong sense of patriotism in whichever endeavor we undertake

Vision

- To establish our company as a leader in the Food production industry.
- To innovate as per the changing customer demands and always fulfill the demands of our customers be it in varieties or the taste of our product
- To streamline all the processes from production, storage to dispatch to meet international standards of food safety
- Use Technology to automate the processes and build a world-class business model

Qualified for international standards

Funwave qualifies for all global standards like HALAL, BRGS, ISO 22000, HACCP, APEDA, FSSAI

Quality

As a ready to eat snack company, maintaining high quality is of the utmost importance to us. Here are some of the ways we ensure that our products are of the highest quality:

Good Manufacturing Practice

We follow good manufacturing practices (GMP) at all times to ensure that our products are produced in a clean, safe, and hygienic environment.

Robust Quality Control System

We have a robust quality control system in place to regularly test our raw materials, in-process products, and finished products to ensure that they meet safety and quality standards..

Food Safety Program

We have a strong food safety program in place to prevent contamination and ensure that our products are safe for consumption.

Highest Quality Ingredients

We use only the highest quality ingredients in our products to ensure that they are flavorful and satisfying.

Our Infrastructure

Having strong infrastructure is essential for the success of our business. Here are some of the key elements of our infrastructure

Equipments

We have the necessary equipment for producing and packaging our products, including large commercial ovens, fryers, and packaging machines. This equipment is regularly maintained and calibrated to ensure that it is in good working order.

Research and Development

We constantly invest in R&D and come up with innovative strategies for cultivation. Our team regularly carries out trials in our corporate farms, for new potato varieties.

Distribution Network

We have an efficient distribution system in place to ensure that our products reach customers in a timely and cost-effective manner. We work with a network of distribution partners to get our products to retail outlets and other points of sale.

Supply Chain Management

We have a well-managed supply chain that enables us to source high-quality ingredients and other materials in a timely and cost-effective manner.
